

Utilizzo delle tabelle “tradizionali” di Milano

Tabelle 2008 aggiornate al 2009

Le tabelle approvate nel 2009 dall'Osservatorio della giustizia civile del Tribunale di Milano costituiscono una modalità profondamente innovativa della liquidazione del danno alla persona.

Infatti tali Tabelle 2009 interpretano e adattano i principi affermati dalla Corte di cassazione 11 novembre 2008, ridefinendo i concetti di pregiudizio biologico, morale ed esistenziale e creando un unico danno non patrimoniale.

Taluni operatori del settore delle liquidazioni, evidenziando che il riconoscimento di pregiudizi diversi da quello biologico non è automatico, hanno chiesto di poter utilizzare per il calcolo i valori c.d. “base” corrispondenti a quelli esposti nella prima colonna delle tabelle Milanesi del 2009 e non aumentati delle percentuali indicate dai compilatori delle tabelle.

Si riporta il passo delle tabelle in cui viene indicato il criterio di aumento medio.

(“dall’1 al 9% di invalidità l’aumento è del 25% fisso, dal 10 al 34 % di invalidità l’aumento è progressivo per punto dal 26% al 50%, dal 35 al 100% di invalidità l’aumento torna ad essere fisso al 50%),.

In pratica si tratta delle tabelle del 2008 (c.d. tradizionali), semplicemente aumentate della percentuale di rivalutazione ISTAT maturata tra il 2008 ed il 2009.

Le tabelle che seguono sono la rielaborazione “esplosa” del “punto biologico 2008 rivalutato al 2009”, ma **depurate** dell’aumento percentuale medio applicato (dal 25% al 50%) nella elaborazione delle tabelle del Tribunale di Milano del 2009.

In pratica si tratta delle tabelle “tradizionali” in uso fino al 2008, semplicemente aggiornate con la rivalutazione ISTAT al 1° gennaio 2009.

La pubblicazione completa di tale elaborazione (ed il loro inserimento in ReMida) permette agli operatori di **continuare ad utilizzare le tabelle milanesi tradizionali** con i criteri precedenti all’innovativa impostazione delle Sezioni Unite.

Per utilizzarle in ReMida basta selezionare la tabella così denominata:
